INTERNSHIP

Frontend Developer, IBM (Remote)   **Jun 2024-Aug 2024**

- Managed and supervised 6 members as the Team Lead for a Frontend Developer team.
- Led the creation and launch of a fully functional website, using different technologies to make it 15% faster and 10% better in overall performance.

Full Stack Developer, IntelliSqr (On-Site)   **Jun 2024 - Aug 2024**

- Streamlined webpage functionality by integrating Tailwind CSS, resulting in a 20% improvement in company website performance. Furthermore, developed reusable TypeScript and React.JS components leading to an extra 10% reduction in site load.
- Contributed to multiple react and node.js based projects, actively enhancing proficiency in full stack development.
- Achieved smooth operation of the company's main website by effectively addressing and resolving multiple critical bugs.
- Wrote and defined clean codes to achieve functional and sustainable web applications.

PROJECTS

Fast Future Technologies   **Jun – Aug 2024**

- The Fast Future Technologies website from scratch using HTML, CSS, JavaScript, Tailwind CSS, and APIs.
- Executed comprehensive bug testing across the website using automated tools and manual checks, identifying and resolving over 15 critical issues, leading to a fully optimized and user-friendly platform for customers.

- Enhanced website performance by 10% through the integration of Tailwind CSS and streamlining global CSS complexity.

Mahhh...Dictionary   **Mar – Apr 2024**

- Mahh Dictionary: A web app with instant word search, pronunciation support, and a sleek interface.
- Powered by Dictionary API, featuring intuitive icons from Remix Icon for quick vocabulary expansion.

ICC Cricket Frontend   **Feb 2024**

- A small frontend (UI) of ICC Cricket using HTML, CSS and JavaScript.
- Created an interactive and visually appealing user interface for the ICC cricket website.

NEWS Application   **Aug 2023**

- A cutting-edge NEWS application leveraging HTML, CSS, and JavaScript.
- Successfully implemented API integration to ensure a seamless experience for users of the application.
- Seamlessly integrated NEWS API to retrieve real-time news data for the project.

Developer Portfolio   **Feb 2024**

- A simple, responsive portfolio for Yogesh Jha using HTML, CSS, and JavaScript.
- Incorporated a contact form for collecting feedback, focusing on the strengths and areas for improvement in the portfolio.

ACHIVEMENTS

- **CPU Assembly Contest Winner**: Secured 1st place at Sushant University, assembling and optimizing a fully functional CPU with all components in under 12 minutes and 35 seconds.
- **Merit Scholarships**: Consistently awarded every semester based on academic performance.
- **Research Paper Presentation**: Presented a paper titled "A Novel News Application for Real-Time Updates" at the International Conference on Advances in Multidisciplinary Research and Innovation (ICAMRI) 2023, organized by Sushant University on October 28th-29th, 2023.
- **Content Writer**: Volunteering for over a year (December 2022 – May 2024) as a content writer for the newsletter at Sushant University's School of Engineering and Technology, reaching over 1,000 readers, including teachers, professors, the dean, and students.
